COMPLETE LINE OF EXTERIOR BUILDING SOLUTIONS

V12" Board & Batten  
in Colonial White

S6" Traditional Lap  
Siding in Colonial White

# FORM AND FUNCTION IN BEAUTIFUL HARMONY.

Of all the siding materials out there, nothing comes close to matching the uncompromising strength, everlasting beauty, sustainability, and quality of EDCO steel. The result of over 70 years of expertise, our virtually maintenance-free siding is engineered with innovative ENTEX® technology that won't chip, crack, or peel. And is fade-resistant for 35 years. That's right, 35 years. Because no one's favorite hobby is repainting their house. And because steel is 100% recyclable, our siding is not only great for your next project, but also good for the environment. EDCO steel siding proves that beauty and performance are sustainable too.

## Benefits of EDCO siding include:

- Proprietary ENTEX® finish that will not chip, crack or peel, but can also reduce energy costs
- Unmatched lifetime non-prorated warranty that covers material and labor costs if the product should fail
- 35-year fade protection
- Metal siding is moisture resistant ensuring it will not swell, decompose or develop mold over time
- Our siding is 100% recyclable

# DURABILITY. SUSTAINABILITY. WOWABILITY.

Whether you choose traditional lap, dutchlap, vertical, shake or a combination of these styles, you'll enjoy nearly limitless design flexibility with EDCO steel siding - without costly, time-consuming maintenance. Featuring our innovative ENTEX® Cool Chemistry® paint technology and a natural wood-grain appearance, EDCO's steel siding will not chip, crack, peel or fade over time. Which means your home or business will look just as good after 35 years as the day your ENTEX siding was installed.

## WE MEASURE DURABILITY IN DECADES, NOT YEARS.

Prism steel siding from EDCO offers rich, elegant colors with a subtle hint of mist. Available in a variety of colors, EDCO's innovative Prism finish provides long-term color retention, which means you will never paint again. In addition, it will not chip, crack, peel or fade over time. We back this performance with 35-year fade protection and an industry leading lifetime, non-prorated warranty that covers material and labor costs if the product should fail.
